

Over the last decade, both Agile and change management have emerged as strategies to improve change outcomes. Organizations are now looking for approaches to integrate change management and Agile to improve the adoption and usage of iteratively designed solutions. In this innovative one-day workshop, explore the latest research and build specific tactics and plans for adapting change management to Agile iterative development. Learn about the best practices and frameworks for applying change management in an Agile environment.

## WHO IS THIS COURSE FOR?

This workshop is designed for people who are responsible for delivering the people-side results on Agile projects, including:

- Change management practitioners supporting Agile efforts
- Agile practitioners integrating the people side into their work
- Project leaders incorporating Agile principles
- Any change agent who wants to stay at the forefront of this growing discipline

## LEARNING OBJECTIVES

Throughout this workshop, you will:
